***Reasons For Allowance***

2. Claims 1 and 5-8 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1 and subsequent dependant claims, prior art of record fails to teach or render obvious, alone or in combination, a controller comprising: a call-admission threshold-value varying unit configured to adjust a call-admission threshold-value for the low priority call based on the estimate of said impact, and set, based on said impact, an indicator indicating an ease of allocation of the low-priority call, so as to cause, using the set indicator, a change in said call-admission threshold-value for the low-priority call in combination with all other disclosed limitations as recited in independent claim 1.

Regarding claim 8, prior art of record fails to teach or render obvious, alone or in combination, a method comprising: adjusting a call-admission threshold value for the low-priority call based on the estimate of said impact; setting, based on said impact, an indicator indicating an ease of allocation of the low-priority call, so as to cause, using the set indicator, a change in said call-admission threshold-value for the low-priority call in combination with all other disclosed limitations as recited in independent claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
